

think: **Drinking Water Taps**

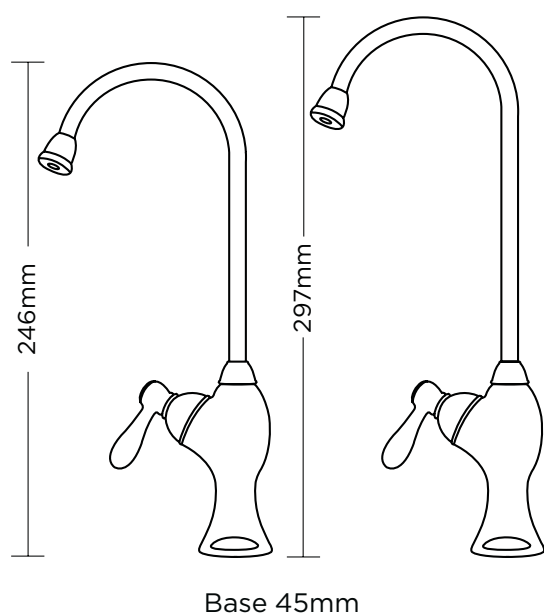

Deluxe Drinking Water Taps

Our lead free designer taps are ideal for customers looking for an exceptional quality product for use with their water softener installation or Kinetico drinking water system. Designed with a taller spout to allow easier access for a kettle or jug.

All have fully serviceable inner components, a ceramic valve for a smoother action and longer life, 1/4 turn full flow lever, 110mm stem thread to cater for thicker worksurfaces and a removable spout.

For special installations with height restrictions, we can supply a shorter (by 2"/51mm) spout.

Tap Range	RRP (Inc VAT)

Three-way Taps

Our range of three way taps allow you to have your filtered water supply dispensed through the main kitchen tap along with your hot and cold water supply. If you don't want to have an extra tap on your work surface, granite work top or sink, a three-way tap is the ideal solution.

Single Spout

A recent addition to our range of three way taps, a one spout twin lever tap which adds style to any kitchen.

Fitted with a diffuser as standard for a no splash spray. The perfect blend of sleek design, performance and quality.

Available in Chrome and Brushed Nickel finishes

Dual Spout

Recently introduced into our range of three way taps, a dual spout tap in modern contemporary styling. Fitted with a diffuser as standard to ensure a no splash spray and designed with a secondary spout dedicated to dispensing drinking water.

Available in Chrome and Brushed Nickel finishes

Three-way Taps - Continued...

Jordan

Clean attractive lines and a long spout make the Jordan a striking tap. Available in Chrome and Brushed Steel finishes that both work well with contemporary and traditional environments.

It has solid, easy reach handles for efficient operation and a rotating swan neck that allows accurate flow direction.

Available in Chrome and Brushed Steel finishes

Colonial

A timeless and classic design, the Colonial is a popular choice. The porcelain effect handles give this tap a traditional feel.

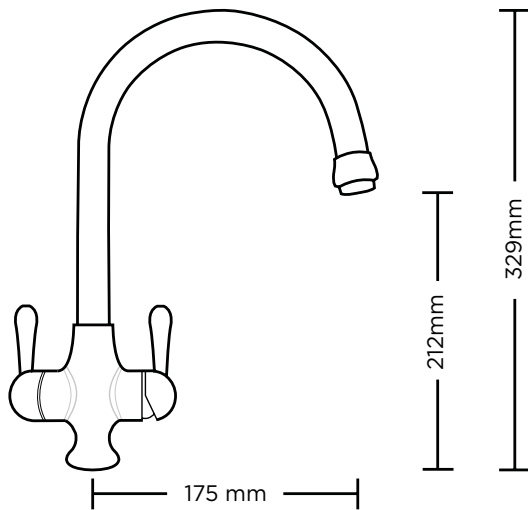

The long spout gives excellent reach enabling flow direction to more than one bowl. Easy to use handles are an added benefit on this model.

Available in Chrome and Gold finishes
